

# Support and Engagement

The launch of the Liberal Future Fund is only the beginning of the engagement and support you will receive from Executive Council and party headquarters as we all work together to build up this new fund.

## Support Materials

All materials found in this document have been made available on the Organizing Ontario Training Hub at [ontarioliberal.ca/training](https://ontarioliberal.ca/training). Materials will continue to be added to help support your association as you grow your donor team ahead of the next election.

To access this password protected content, simply enter your Organizing Ontario password. If you do not have a password, contact your PLA president or staff at party headquarters to request one.

## Quarterly Online Training Sessions

In addition to the Organizing Ontario video curriculum on local fundraising that is currently in development, the party will be offering quarterly training sessions online.

These sessions we will cover best practices, touch on new resources being made available to PLAs, and highlight success stories from other volunteers from around the province. For a list of upcoming sessions, watch for email notices from party headquarters and check back regularly at [ontarioliberal.ca/events](https://ontarioliberal.ca/events).

## Monthly Leaderboard Updates

Each month, we'll be posting updates to a special Liberal Future Fund Leaderboard on the Organizing Ontario Training Hub. The leaderboard will be organized by region and celebrate the successes of all PLAs as you work to sign up new donors each month.

Updates will be made monthly and categories will include:

- Most current donors
- Most dollars raised
- Largest month-over-month increase in current donors
- Largest month-over-month dollar increase

The Leaderboard will give each riding and region a chance to participate in some friendly competition while helping to create connections between associations and encourage the sharing of best practices.
